DETAILS

Name

KAPARABOINA THANUJA

Roll Number

20R01A05E4

EXPERIMENT

Title

WEEK 6

Description

WEEK-6

AIM:

Write a test case to perform automation on Ajio shopping website.

ALGORITHM:

1. Accessing shopping website
2. create an account for that Ajio shopping website.
3. Enter the fields through testcases information we have provided.
4. close the acivity after successfully created account.

Procedure and Overvation:

20R01A05E4

```
package week6;

import java.util.HashMap;

import java.util.Iterator;

import java.util.Map;

import java.util.Set;

import org.openqa.selenium.By;

import org.openqa.selenium.WebDriver;

import org.openqa.selenium.WebElement;

import org.openqa.selenium.chrome.ChromeDriver;

import org.openqa.selenium.chrome.ChromeOptions;

public class week6 {

        public static void main(String[] args) throws InterruptedException {

                // TODO Auto-generated method stub

                Map<String,Object> prefs =new HashMap<String,Object>();

                prefs.put("profile.default_content_setting_values.notifications", 2);

                ChromeOptions options =new ChromeOptions();

                options.setExperimentalOption("prefs",prefs);

                System.setProperty("webdriver.chrome.driver","C:\\\\Users\\\\nagaraju\\\\Downloads\\\\chromedriver_w
in32 (2)\\\\chromedriver.exe");

                WebDriver driver=new ChromeDriver(options);

                driver.get("http://www.ajio.com");
```

```
        driver.get( http://www.ajio.com );

        driver.manage().window().maximize();

        WebElement signlink=driver.findElement(By.xpath("//span[@class='  login-form login-modal']"));

        signlink.click();

        WebElement fblink=driver.findElement(By.xpath("//span[@class='fb-icon'] "));

        fblink.click();

        Thread.sleep(1000);

    Set<String> allwindows=driver.getWindowHandles();

        Iterator<String> iterator= allwindows.iterator();

        while(iterator.hasNext()) {

                String childwindow=iterator.next();

                if(!allwindows.equals(childwindow)) {

                        driver.switchTo().window(childwindow);

                }

        }

        WebElement email=driver.findElement(By.id("email"));
        email.sendKeys("abc@gmail.com");

        WebElement pwd=driver.findElement(By.id("pass"));

        pwd.sendKeys("abc123");

        WebElement lgn=driver.findElement(By.name("login"));

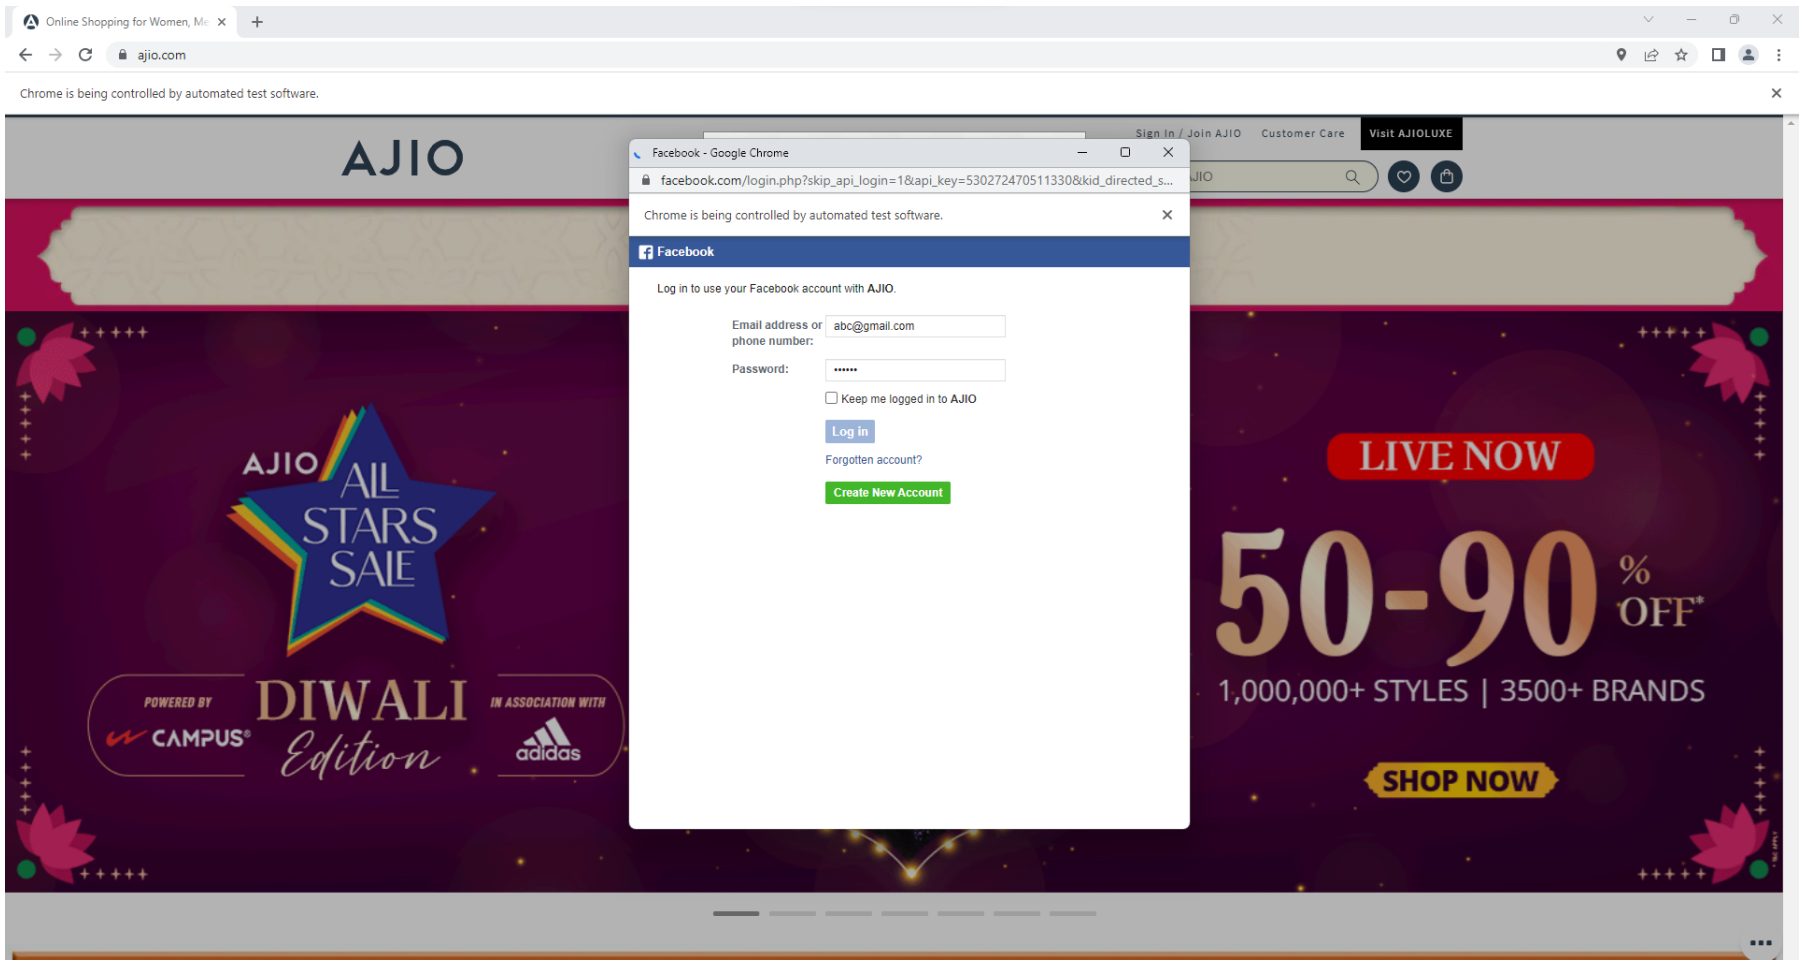
        lgn.click();

        Thread.sleep(30000);S

        driver.quit();

    }

}
```



VIVA RESPONSES

Q) What is a test suite made of ?

Tests

Q) What does the term DOM refers to ?

Document object model

Q) Where is X-path used in ?

XML documents

Q) What is called that scale for largest test suites or test suites that must be run in multiple environments ?

Selenium –Grid

Q) Which selenium command check whether specific text exists somewhere on the page ?

verifyTextPresent
