Write test case to open google and download a image from google images of cmrit website.

ALGORITHM:

1. search google website
2. Fetching the google searchBar
3. Sending CMRIT in searchbar
4. Opening the images page
5. Select one image and download that image into our system downloads.

Procedure and Overvation:

```
package week8;

import java.awt.AWTException;

import java.awt.Robot;

import java.awt.event.KeyEvent;

import org.openqa.selenium.By;

import org.openqa.selenium.Keys;

import org.openqa.selenium.WebDriver;

import org.openqa.selenium.WebElement;

import org.openqa.selenium.chrome.ChromeDriver;

import org.openqa.selenium.interactions.Actions;

public class w8 {

        public static void main(String[] args) throws AWTException, InterruptedException {

                // TODO Auto-generated method stub

                System.setProperty("webdriver.chrome.driver","C:\\Users\\nagaraju\\Downloads\\chromedriver_win32 (1)
\\chromedriver.exe");

                WebDriver driver=new ChromeDriver();

                driver.get("http://www.google.com");

                WebElement srhbar=driver.findElement(By.name("q"));

                srhbar.sendKeys("CMRIT HYDERABD");

                srhbar.sendKeys(Keys.ENTER);

                driver.manage().window().maximize();
```

```
                WebElement images=driver.findElement(By.xpath("/html/body/div[7]/div/div[4]/div/div[1]/div/div[1]/di
v/div[3]/a"));

                images.click();

                WebElement img=driver.findElement(By.xpath("/html/body/div[2]/c-wiz/div[3]/div[1]/div/div/div/div
[1]/div[1]/span/div[1]/div[1]/div[1]/a[1]/div[1]/img"));

                Actions actions=new Actions(driver);

                actions.contextClick(img).build().perform();

                Robot robot=new Robot();

                for(int i=1;i<=7;i++) {

                        robot.keyPress(KeyEvent.VK_DOWN);

                    Thread.sleep(1000);

                }

                for(int i=1;i<=2;i++) {

                        robot.keyPress(KeyEvent.VK_ENTER);

                        Thread.sleep(2000);

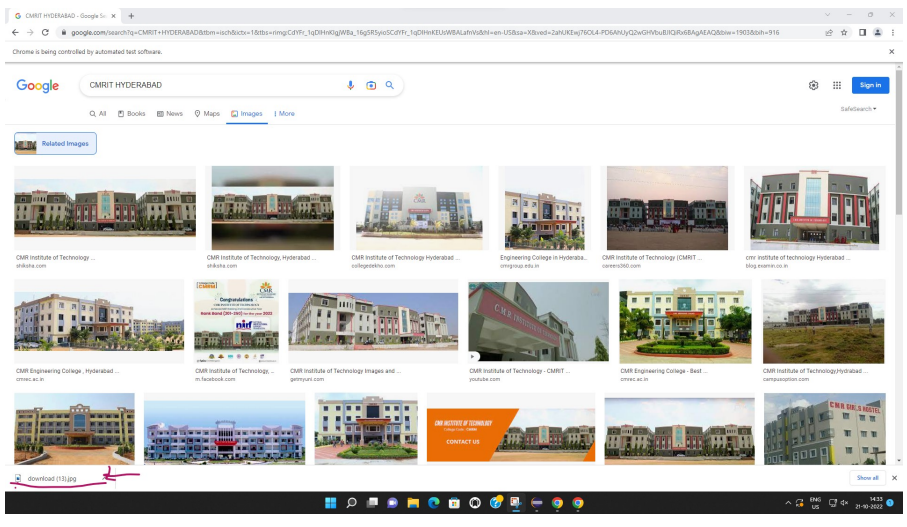
                }
                System.out.println("CMRIT image download successful");

                Thread.sleep(1000);

                driver.close();

        }

}
```



VIVA RESPONSES

Q) Select the variation which locates elements by the value of their “id” attribute in Web Driver Selenium

By.id

Q) Select the tab that shows which command Selenium IDE is currently executing.

Info

Q) Select the variation which locates elements by the value of the " name" attributes in Web driver Selenium.

By.name

Q) What is TestNG ?

TestNextGeneration

Q) Select the variations which finds elements based on the driver's underlying CSS selector engine in web driver Selenium.

By.cssSelector
